

Henry Korn's Cannon

(Official record begins on page 2 of this PDF)

During the 1831 session of the Maryland General Assembly, Resolution No. 42 required the Governor and Council to deliver a 6 pound iron cannon, together with carriage, limbers and accoutrements to Henry Korn and Noses H. Lauthan of Cumberland, Allegany County, Maryland. Based on a cast iron weight of 0.282 to 0.285 pounds per cubic inch, a true six pound cannon ball would measure from 3.438 to 3.426 inches in diameter.

The book "The Genealogy of Michael Korn, Sr..." states "He was called "Captain Henry Korn, 2nd" by his grand-daughter. His commission made him a captain in the State Militia of Allegheny County, Maryland, February 22, 1826."
